CLOSING BATES

Yesterday of cotton and gold: Liverpool catton, 6 1-2d. Memphis cotton, 10 7-8c. New Orleans cotton, 10 3-4c. New York cotton. 11 3.4c. New York gold, 100 3.8.

THE board of health reports for yesterday, twenty-nine new cases of yellow fever, al white. Ninety-three deaths were also reported, of which number forty-four were colored and forty-nine were white. This makes a total of cases to date of two thousand and thirty-seven, and deaths, sixteen hundred and fifty-five.

DR. J. D. WOODARD died, and was buried yesterday, from his rooms in the Gayoro block. He feil battling heroically for the relief of the afflicted.

According to Mr. J. H. Chinn, acting observer, the thermometer at 7 a.m. yesterday registered 53 degrees, with the wind northwest. At 2 p.m. 68 degrees, with the wind north west, and at 9 p.m., 60, with the wind from the north.

Dr. Ramsey, of Washington, who was very eager to come here, but more so to ge away, says, in his statement elsewhere published, that the Peabody hotel is a pesthouse. This is not true. From first to last there have been eight cases of fever there five of which are still there-three baying died. As to the bed-clothing being dis infected, that also is untrue. Where bed and bedding have been used by yellow-fever patients they have been, and will b burned. The excreta has, also, in every case, been disinfected. Mr. Galloway, the manager of the hotel, has at all times kept clean rooms and clean beds, and supplied good; well-cooked food, al though his belp has been so limited as a times to induce the belief he would have to close. He has served the public well and faithfully, and has done better than the most carping had any right to expect.

Major Willis, of the Southern expres company, has been so conspicuous in hehalof the stricken people of Memphis since the epidemic began, that his absence from the scenes of his labors and from the counci board of the citizens' relief committee especially, has been sadly felt. His advice waalways received with confidence that it was right. He was business itself. His methods were correct, and they were always found the shortest road to the accomplishment of de stred results. While his subordinates of the express company were falling about him like eaves in autumn, his nerves were steady, his temper cool and his brain equal to all the demands of an impatient and clamorers people. With a strong will and well-balhe filled as one of a trio-Wright, Fisher and Willis-on whose shoulders for weeks rested the peace, order and safety of the city. The weather continues cold, but there is no ner Dunlap street and Henry avenue, MAMIE BELLE Good pilots in a troublous sea, two of them are down with the fever. Fisher is left alone but he has others to sustain him, and they thank God, are equal to the task. We hope and pray for Major Willia speedy recovery.

A LIBEL ON THE COLORED PEO Special to the Appeal.

WASHINGTON, D. C., September 13.-The Post of this morning contains a long account of an interview with Dr. Ramsey, just returned from Memphis in that interview Dr. B. makes the following hideous tatement: "Such is the scarcity of nurses, that th best a white woman can do is to have a male negro nurse; and strange as it may seem, I was authentically informed that these negro nurses will take ac antage of their belpless white victims, even while they are in the agonies of death." This is univer sally denounced as a foul culumny. For God's sake make a formal and authentic dental of the stander. WM. H. McCARDLE. As promptly as this was received last night

we answered it. We dispatched to the Washington Post at once that it was notrue, every word of it; that no man, white or black, guilty of it, could breath a second here after the perpetration of such a crime became known; that no such crime had been committed; that the colored people of Memphis in mass have been as loyal to duty as the whites; that they had responded as quickly as policemen, soldiers and nurses as the white people, and, with the exception of a few noisy ones who had been suppressed by Captain Brown's (colored) Zonaves, had manifested a disposition peaceable and reassuring so far as the maintenance of law and order was concerned. We added that the white people of Memphis appreciated and were proud of their colored fellow-citizens. And we are. Whenever and wherever they have been called upon they have manifested disposition that has won the admiration of the members of the Howard Association and of the Citizens' Relief Committee. Individual exceptions to this rule there have been, but they were exceptions proving the rule. We repeat, the colored people have done well. Thrown out of employment by the entire essation of business and left without any neans of living, they have manifested a patience and a forbearance that is in remarkable contrast with the riotous clamors the white people of the large trade centers would have made under tike circumstances. Looking back through the gloomy vista of the past five weeks, and recalling all we have passed through, how near to anarchy we have been several times, we are thankful that the negroes, forming as they do, just now, the ing Memphis, even when five miles out, the fested a patience worthy of all praise. We are sorry Dr. Ramsey was made the means of went to the Peabody hotel, the only one now conveying so gross a libel to the public prints -a gross libel, grosser and more unjust than tance with the press. And let us add, we re gret that the doctor, being put in possession of such horrible facts, did not give them to us, or apprise Dr. Mitchell, medical director of the Howard association, to whom he re ported, but whom, we understand he deserted two days after his arrival in Memphis. Brownsville, Tenn.

Special to the Appeal. BROWNSVILLE, September 13 .- The outlook to-day notwithstanding the cold weather is not encouraging, but, on the contrary, is of the gloomiest character. There were fifteen new cases and three deaths. Among the new cases is that of Colonel Westbrook, one of the secretaries of the Howard association. H was taken this morning, and is now at hi house with the fever. Professor Cuthber died this morning, at nine o'clock, with the fever. He was a noble, christian gentleman, and greatly beloved for his strict probity character, piety and humanity. Two of Mr. Cuthbert's children are at the point of death with but little hope of recovery. We ar here in the midst of desolation and death. I is almost impossible to recognize in the desert solitude surrounding us the brisk and cheerful little city of a few weeks ago. Sorrow with the settledcalmness of despair is seen on every face. No one knows who may be called nex by the fell destroyer. We ask the prayers of all christian people that a merciful Goo may interpose His arm to arrest and save us from impending destruction.

More of Ramsey's Statement. Washington, September 13.-M. T. Ramsey, one of the physicians who went to Memphis with the corps of Washington nurses, has returned to Washington in com-pany with Dr. Pease and Mrs. Wallace. In in interview, Dr. Ramsey said before reachair was laden with yellow fever poison, and as we approached the city the stench was absolutely sickening. Dr. Pease and myself open, and were shown into rooms from which a dead lady had just been taken and re-moved; vessels of black vomit were standing about the room, and bed clothes had not een changed. The hotel itself is a perfect est-house, and victims of the disease are in two-thirds of the rooms. Salphur pads were kept burning in the hall, and clothes and bedding are constantly disinfected, but they ant get help enough in the hotel to do hall what ought to be done. All commerce has ceased and business of nearly every kind is suspended. People have no heart to attempt any regular business, and could not if they Even liquor saloons for most par are closed, and provisions as a rule are empty The greatest need is provisions, clothing physicians, money, nurses and medicine The best thing that can be done now is for send plenty of provisions and clothen Negroes and many poor whites for a section of one hundred and fifty miles around Memais have flocked in there, hearing that the ould get something to eat, and as to clothes undreds of people are going about the treet, especially colored women, with hardly mything on at all. Sights in this respecare distressing. So far no serious outbreak has occurred, but the better classes are in con-

ear on the part of the whites of some addiional evil CONATIONS TO THE COMMISSARY DEPART-Of the citizens' relief communication September 13, 1878: Citizans of Court of young cattle; Made Williams, Nach-

CAN BE PREVENTED

By the Medicated Vapor Bath. It thoroughly purifles the system by withdrawing all poisonous matters, thus preventing contagion. This Vapor Bath that has proved so efficacious in eradicating Yellow-Fever from the system, is obtained by an apparatus rely patented for the production of Turkish and Vapor Baths, at the cost of the heat required—about five cents. It can be moved from room to room, and managed by a child, with no danger in the operation. No family can have the Yellow-Fever if its members use it, and it has never been known to fail in draining the poison from the system when used on a Yellow-Fever patient. It has proved more effective than the ordinary Turkish Bathhouse in erad-esting Rheumatism, Asthma. Catarrh, Skin Diseases. Dyspepeta, and all Nervous and Debilitating Maladies.

The entire apparatus for Turkish and Vapor Batha, including a case of medicinel agents for the production of six different Medicared Vapor Baths, \$10. We will send, carriage paid, on receipt of price, or C. O. D. by express, charges to be paid by purchaser. Pamphlet of testimoplais and drawing of apparatus free. Lubin's Portable Turkish Bath Co., 68 East Fourth street, Cincinnati, Ohio. Baths, at the cost of the heat required-about five
